

What do I want from a job?

ICT

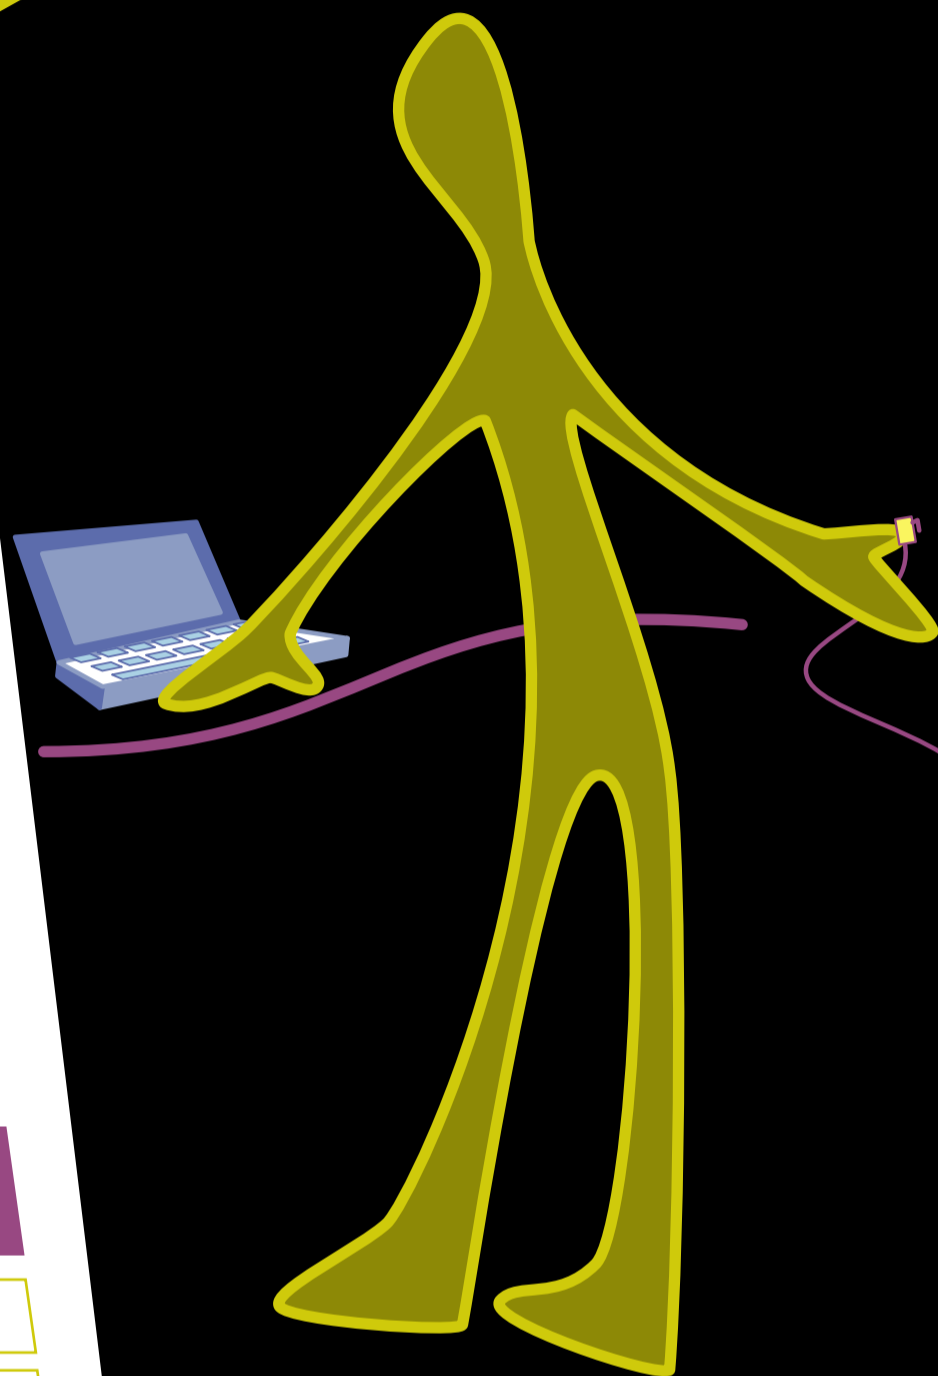

I want to use a computer!

We all enjoy using a PC to play games, surf the web or print off photographs.

Information & Communication Technology (ICT) helps you write essays or look up a book on the library computer.

How ICT is used in a job

Employers want you to have good computer skills to do things like, send emails, book in stock or prepare an assembly line.

Check out what **careers** you may like, but remember they are only ideas!

computer operator

computer games tester

website designer

database administrator

graphic designer

IT trainer

PC support person

manufacturing operator

communications technician

TV production person

What's next?
